Help!: auto to manual swap - LS1.com

asmalls@Feb 14 2004, 04:50 PM wow, I think you did a little to much work. When I did an auto to manual swap, we did not take the steering column off. All we did was undo all the bolts using verious swivels and extensions, removed the cotter pins, then once everything was all loose, just cut the brake pedal off, then it slides right out of there.

Chevrolet Transmission Swap Guide - Chevy High Performance

You'll have to dig through realoem.com if you want part numbers. You can also look at various posts on e46fanatics for the details on this swap. Several people have made DIYs and one person made ...
