the fourth element goes at the first of the list thus we shift all of the first three elements to the right by one to make space for the 26. This gives 26,31,41,59,41,58. Next we see that the fifth element (here a 41) needs to be at

the third or fourth location so we shift the 59 one to the right to get 26,31,41,41,59,58.
