### Identify your iPod model - Apple Support

I have this touch screen problem in my 7th generation iPod nano. It doesn't respond to the touch. For e.g., if I tried to slide the screen to go to the next page on menu, Podcast is opened, couldn't control volume using touch, couldn't seek music, couldn't switch on Bluetooth.

### iPod touch User Guide - Official Apple Support

Resetting your iPod touch settings. You can reset all or part of your iPod touch settings while leaving your content and personal information intact. To see your resetting options, choose Settings→General→Reset from the Home screen (Reset is at the very bottom of the General settings screen). The Reset screen appears with the following options:

### iPod touch - Apple

The latest, shrunken touch-screen iPod nano marks a rare misstep from Apple. Because it is an iPod, the 6th-generation nano works seamlessly with a graceful user interface, but it's a flawed concept. Last year's 5th-gen nano came with a largerFull Review.

### Amazon.com: ipod nano touch screen

Press and hold the Hold button (in the top right corner) and the Home button (on the bottom front) at the same time. When the screen goes dark, let

go of both buttons. In another few seconds, the Apple logo appears, which means the nano is restarting. In a few seconds, you'll be back at the main screen, ready to go.
